My Health Record

Overview:

Participants will be introduced to the My Health Record system and explore its features, functionalities, benefits and uses. The session will prepare participants for the My Health Record Expansion and provide opportunity to workshop pathways to ensure a collaborative approach.

Learning Outcomes:

- Understand features and benefits of My Health Record and how to maximise its use.
- Describe how to communicate the benefits of the My Health Record system to patients and clients.
- Describe privacy and security measures taken to protect My Health Record and how to discuss privacy concerns.
- Inform others what they need to do to help you and/or patients maximise My Health Record.
- Establish ideal digital health pathways between consumers, healthcare and service providers.
- Work together with North Coast Primary Health Network (NCPHN) to develop practical steps to prepare, collaborate and achieve best outcomes for you and the community.
