

You are invited to participate:

Primary Care Advisory Group

Leading Better Value Care

Leading Better Value Care (LBVC) is a priority initiative of NSW Ministry of Health. 8 areas of focus have been identified across the health system, encouraging a more collaborative, whole-of-system approach, delivering better value healthcare to patients.

The 8 priority areas of focus for LBVC:

1. Management of Osteoarthritis (OACCP)
2. Management of Chronic Heart Failure (CHF)
3. Renal Supportive Care (RSC)
4. Inpatient Management of Diabetes Mellitus (IMDM)
5. Diabetes: High Risk Foot Services (HRFS)
6. Management of Chronic Obstructive Pulmonary Disease (COPD)
7. Osteoporotic Refracture Prevention (ORP)
8. Falls in Hospital (Falls)

The purpose of the Primary Care Advisory Group (PCAG) is to provide a primary care perspective on the 8 LBVC priorities. PCAG aims to **enhance patient care, promote health system integration, efficiency and improve the patient experience, across the health system.**

PCAG discusses a different priority every second month on a Wednesday evening. Members are remunerated* and dinner is provided.

Current membership includes representatives from the PHN Clinical Council.

If you are a local GP or Allied Health Clinician with an interest in any of the 8 priority areas invitation is extended to you on behalf of the Local Health District.

Please indicate the areas you are interested in when you RSVP. Membership is obligation free, please attend as frequently as you like.

The next PCAG topic is: **Diabetes: High Risk Foot Services**

Wednesday 1st May 2019 at 6pm

North Coast Primary Health Network, 106-108 Tamar St, Ballina NSW 2478

RSVP via email: integratedcare@health.nsw.gov.au

*Remuneration will be provided by NCPHN to the GP and private allied health professional members through a Recipient Created Tax Invoice, as per NCPHN's Stakeholder Engagement Remuneration Policy.
