

Health

Mid North Coast Local Health District

DATE: 14/07/2020

Introduction:

The scope of the pilot is to test, implement and support the Admission Discharge Notification (ADN) solution at 7 sites within MNCLHD and will be available for all general practices.

The ADN pilot will send notifications for the following clinical areas:

- Cardiac
- COVID-19 clinics
- Day Surgery
- Day Medical
- Emergency departments — discharge notification
- Emergency department — admission to hospital
- Hospital in the home
- Intensive care units
- Interventional Cardiology
- Maternity
- Medical (Aged)
- Medical
- Medical Assessment
- Medical Procedure
- Mental Health
- Neonatal
- Palliative Care
- Paediatrics
- Obstetrics and Gynaecology
- Rehabilitation
- Short Stay Surgical
- Special Care Nursery
- Surgical
- Transit

Any other clinical areas not listed above will be reviewed after evaluation and may be included in the next enhancement after the pilot.
