

A Kempsey/Macleay Clinical Society **WEBINAR**

Dementia in the Macleay Valley

This online clinical society meeting will outline the clinical approach to the assessment of dementia, enhance your understanding of psychiatric disease in the elderly population, and look at the journey for those living with dementia and that of their health professionals and carers.

Dr Andy Williams

Dr Dan Tilly

Brandi Walsh

What to expect

- Management of behaviours and psychological symptoms
- Dementia scoring systems and local services
- Case presentation: a family's journey
- Panel discussion and Q&A

Learning outcomes

By attending this clinical society meeting, you will be able to:

- Accurately diagnose and manage dementia.
- Identify behavioural and psychological symptoms and how they might present.
- Describe pharmacological and non-pharmacological treatment options for dementia.
- Assist people with dementia and their carers to access appropriate resources and information within the Macleay Valley.
