

Implementing ePrescribing

A Guide for Dispensers and Prescribers

The University Centre for Rural Health and Healthy North Coast invite you to attend an evening webinar on the implementation of ePrescribing.

You will hear from leading expert Australian Digital Health Agency, as well as local champions (a pharmacist and practice manager) who have recent experience in implementing this new system.

The webinar will be targeted at community and hospital pharmacists, general practitioners, practice managers, GP registrars, nurse practitioners, as well as medicine, nursing and pharmacy students.

A representative from Healthy North Coast, deliverers of the Primary Health Network initiative on the North Coast NSW, will also discuss the support available at a local level.
