

North Coast Clinical Societies

In 2021, local clinical connections are more important than ever.

This is your chance to embed yourself in your local community of health practitioners to make friends, network, learn new information and have fun in a collaborative, knowledge-sharing space!

Be a Part of Your Local Clinical Society

Early this year our clinical societies came together to choose their own CPD modules for the year. You told us what you wanted and we listened!

Your chosen events are now being rolled out — see our calendar on the next page.

As a member of your local clinical society, you will have the opportunity to share your passion for your work with like-minded colleagues in your region across all primary care disciplines, and participate in tailored, needs-based CPD training over the next 12 months.

We encourage you to get involved in your local clinical society. Meetings are for practitioners of all types to come together, including:

- General practitioners
- Allied health practitioners
- Aboriginal health workers
- Nurses
- Pharmacists
- Specialists
