WEEKEND OF WOUNDS 24-25 JULY 2021 | THE GOLD COAST

This conference explores the complex area of lower leg ulceration. You will learn about best practice wound management including wound aetiology, factors affecting wound healing and dressing selection. Take part in 3 separate workshops on conducting a doppler, compression bandaging, and ongoing oedema management session.

CONFERENCE LEARNING OUTCOMES

- Gain an understanding of the aetiology of lower leg ulcers
- Investigate factors affecting wound healing outcomes for lower leg ulceration
- Explore and participate in assessment & management of lower leg ulceration
- Discuss Best Practice & Principles for lower leg ulcers
