

A Kempsey & Macleay Clinical Society event

Dinner, networking and education

It's not all Zoom and gloom. We are back for face-to-face learning! Join us for dinner and hear about the biopsychosocial aspects of chronic pain management. Connect with local clinicians, discuss CPD needs and play a part in the development of our 2022 education calendar.

What to expect

This end-of-year get-together is a chance to network with other local clinicians and have some fun as the year comes to a close. We'll hear from Dr David Skalicky, Dylan Chrimes and Dr Anthony Richardson about ways to collaborate more efficiently when managing chronic pain. Increase your knowledge of why pain exists and the importance of interdisciplinary care and useful non-pharmacological strategies. Get to know current online and accessible chronic pain initiatives and resources relevant to primary care and gain practical advice for managing the biopsychosocial aspects of chronic pain management.

We'll also discuss the North Coast CPD needs assessment and Healthy North Coast's draft CPD events calendar – a chance to have your say on what you'd like to learn next year.

Agenda

6pm	Arrival, networking and canapes
6:25	Main meal served
6:50	Presentation: Managing the Biopsychosocial Aspects of Chronic Pain
7:30	Presentation: Healthy North Coast 2022 education

COVID SAFETY

Healthy North Coast takes its obligations for your safety seriously. We advise that the venue where the event is to be held is COVID safe and that a COVID safety plan has been developed and registered with the NSW Government. Numbers will be restricted, so reserve your place early. If you are sick or experiencing the mildest of symptoms, please do not attend. All attendees must comply with the NSW Government order (effective 11 October 2021) stating that no unvaccinated person (over the age of 16) is allowed into hospitality premises.
