

Chronic disease clinical society forum 2023

Together, we can create a healthier North Coast

Chronic Disease impacts everyone involved in managing our populations health. The Australian Institute of Health and Welfare estimated that in 2021 almost half of us lived with one or more chronic conditions. GPs, Nurses, Allied Health Professionals and Practice Managers care for the health of North Coast communities by managing chronic diseases in their practice everyday.

**4th November 2023
Port Macquarie**

**19th November 2023

Healthy North Coast warmly invites you to join us at your closest Chronic Disease Clinical Society Forum for:

- A vast range of chronic disease management topics
- Profession-specific streams for GP's, Nurses, Allied Health & Practice Managers
- Interdisciplinary discussions, case studies and networking
- 6.5 CPD hours

The chronic disease clinical society forums are developed by Healthy North Coast in collaboration with North Coast Allied Health Association and HealthPathways.
