

ARE YOU A HEALTHCARE PROVIDER supporting people living with diabetes?

Please take this short survey to advise what is needed for you to support consumers to manage their diabetes more effectively. Your feedback will identify systems-based improvement opportunities for people living with diabetes.

NSW Health and the NSW/ACT Primary Health Networks (PHNs) are committed to working with partners in a 'one health system' approach, to improve the health outcomes and experiences of care for people living with diabetes.

Use the QR code to access the anonymous survey online.
