at-risk older adults access services.

How we help

Finding the right care can feel hard. We're here to make it easier.

Our team will take the time to understand what matters to you. We will help connect you with the aged care and community services that best suit you.

We can help you to:

- understand your care choices, including government-funded support
- meet with aged care assessors
- fill in forms and paperwork
- connect with local health, social and community support.

Our support is free, and we can meet you at home or somewhere that works best for you.
