

Resident becoming unwell?

Deteriorating Resident Triage Tool (DRTT)

Assisting you with what to do next.

Why use the DRTT?

- Make more confident decisions
- Know you are triaging effectively
- Have clinical support to manage conditions
- Communicate clearly with GPs, Ambulance & Hospitals
- Delivers on Aged Care Standards
- Reduces unnecessary hospital transfers.

Remember

Check for an Advance Care Directive (ACD) – it makes all the difference.
