

Our Patients Together

Navigating Lismore Base Hospital

Join us for an evening of collaboration and clinical updates at **Lismore Base Hospital**.

This is the first of a series of sessions that provide the latest updates from hospital specialist teams for general practitioners and primary care clinicians.

At this session, hear from:

- Anaesthesia and Perioperative Medicine
- Emergency Medicine

Our presenters will share how their teams are supporting local patients and families, and how we can collaborate for more connected care.

CPD Information: A certificate of attendance will be provided for self-reporting 2 hours of CPD education.

Come along to:

- Discover new projects starting in 2026

- Stay up to date with hospital services

- Strengthen referral pathways

- Build relationships with your local hospital teams

Light dinner and refreshments will be served, and there'll be plenty of time to connect with colleagues and ask questions.
