

Help Shape Non-Viral Liver Care Pathways across the North Coast

Clinical Pathway Design Workshop Series

We invite you to **share your experience and knowledge** and help shape the future of liver care across the North Coast.

The LIVERCARE Project explores opportunities to **improve non-viral liver care across North Coast NSW**. Join fellow GPs and healthcare practitioners in a **Clinical Pathway Design Workshop** to apply local context towards mapping the ideal patient journey, and design solutions that improve care and outcomes for people living with liver disease.
