Friday 20 November at Jetty Beach House

6pm registration

Dinner provided

CPD point eligibility

Proposed Learning Outcomes

1. Recognise the common symptoms and health impacts associated with menopause.
2. Apply evidence-based assessment and management strategies for women presenting with menopausal symptoms.
3. Discuss the benefits, risks and prescribing considerations of menopausal hormone therapy (MHT) and non-hormonal treatment options.
4. Identify when specialist referral or additional supports may be beneficial for women experiencing menopause.
